

AMS 210
Applied Linear Algebra
Spring 2022

Instructor: Dr. Kazem Mahdavi, Professor of Mathematics

Office: Academic Building A 511

Office Hours: TBA, or by appointment

Telephone Number (office): 032-626-1384

Email: kazem.mahdavi@sunykorea.ac.kr

Class Meeting Time: 5:00 – 6:20 pm, MW

Room: TBA

TAs: TBA

This course might be on line, if online then

Notice: We will use Blackboard to provide information and communicate with students.

1. We will be using Zoom to teach this course. Students are responsible for having a dependable internet, Wi-Fi, and other related tools.
2. Half an hour before the class starts, I will give you Zoom information. It will be announced on Blackboard.
3. Exams, and Final exam may be face to face.

4. You have to upload your homework on Blackboard by due dates and time. No late homework will be accepted. Homework have to be uploaded in PDF format. Homework not in PDF will get a zero grade
Submission of homework and exams by email is not

allowed

5. Office hours might be online

Required Texts:

1. Contemporary Linear Algebra, by Howard Anton, Robert C. Busby, Wiley Publisher. **You need to buy a copy**
2. *Linear Algebra*, Cherney, Denton and Waldron, **PDF is available for free**
3. *Some other books that professor might provide PDF to help you with the course.*

Course Description:

Linear Algebra is a very important and useful course. In this course we study topics including Linear System of Equations, Matrices, Matrix Algebra, Determinant, Vector Spaces, Basis, Linear Transformations, Inner Product & Length, Eigenvalues, and some application of Linear Algebra

Evaluation Methods

Homework and Quiz	50 points
Test 1	100 points
Final exam	150 points

Notice: to get a passing grade for the course your final exam score should be at least 105 (70%).

HOMEWORK

You will have weekly homework. In order to learn the course materials and develop necessary skills, you should do your homework on time. No late homework will be accepted.

You will upload your homework on blackboard, in PDF format, by due dates. I strongly encourage students to form a study group to do their homework.

Attendance

Attending this class is compulsory. Regular attendance is very important and is a factor in helping students to succeed in the course. You will fail the course, if you do not attend the class regularly

Test and Quiz Dates (Tentative):

Quiz might be given without prior announcement

Test 1 will be in mid. April

Final exam: TBA

Grades

93%-100%	A
90%-92%	A-
87%-89%	B+
83%-86%	B
80%-82%	B-
77%-79%	C+
73%-76%	C
70%-72%	C-
67%-69%	D+
63%-66%	D
60%-62%	D-
0%- 59%	F

Learning Outcomes:

1. Demonstrate knowledge of vectors and dot product
 - a. using vectors in real life problems
 - b. using vector algebra and solving vector equations
 - d. using dot product in geometrical settings

2. Demonstrate knowledge and skill of Matrix calculations
 - a. Calculating solution of linear systems
 - b. Calculating a solution to a real-life problem

3. Demonstrate knowledge and skill of different aspects of a matrix
 - a. Calculating the determinant of a given matrix, if it exists
 - b. Calculating Eigenvalues and Eigenvectors of a matrix
 - c. Calculating different decomposition of a given matrix
 - d. Calculating diagonalization of a given matrix.

4. Demonstrate understanding of linear transformation (LT) and vector spaces
 - a. Calculating dimension of a given vector space
 - b. Calculating kernel and range of a given LT.
 - c. Work with some important examples of vector spaces and LT
 - d. Master some applications of Linear Algebra

Cell phones, IPODs and other electronic devices use are not allowed. Please, set your cell phones and pagers to silent mode, and turn off all your electronic devices during the class time. If you are expecting an emergency call, please notify the professor in advance, sit near the door, and answer the phone outside. You will not be allowed to wear an IPOD or other electronic devices during an exam.

Photography and recording is prohibited during the class.

Policies and Expectations

Please refer to the following link in terms of Policies and Expectations of the students.

<http://admissions.sunykorea.ac.kr/academics/29>

Academic Integrity

Each student must pursue his or her academic goals honestly and be personally accountable for all submitted work. Representing another person's work as your own is always wrong. Faculty are required to report any suspected instances of academic dishonesty to the Academic Judiciary. For more comprehensive information on academic integrity, including categories of academic dishonesty, please refer to the academic judiciary website at

<http://www.stonybrook.edu/uaa/academicjudiciary/>

Americans With Disabilities Act

If you have a physical, psychological, medical or learning disability that may impact your course work, please contact Academic Affairs. They will determine with you what accommodations, if any, are necessary and appropriate. All information and documentation is confidential.

Critical Incident Management

Stony Brook University expects students to respect the rights, privileges, and property of other people. Faculty are required to report to the Office of Judicial Affairs any disruptive behavior that interrupts their ability to teach, compromises the safety of the learning environment, or inhibits students' ability to learn.

Course Evaluations

Stony Brook University values student feedback in maintaining the high quality education it provides and is committed to the course evaluation process, which includes a mid-semester assessment as well as an end-of-the-semester assessment, giving students a chance to provide information and feedback to an instructor which allows for development and improvement of courses. Please click the the following link to access the course evaluation system:

<http://stonybrook.campuslabs.com/courseeval/>

Attendance Policy of SUNY Korea

(1) All students of SUNY Korea are required to attend every class.

- (2) Unexcused absences will affect seriously the student's final grade in the course.
- (3) If a student has over 20% unexcused absence, the student's final course grade will be an 'F'.

Example)

- i) If the class is a 150 minute class, and is held once a week, the 4th unexcused absence of a student will lead to an F grade of the course.
 - ii) If the class is a 75 minute class, and is held twice a week, the 7th unexcused absence of a student will lead to an F grade of the course.
 - iii) If the class is a 50 minute class, and is held three times a week, the 10th unexcused absence of a student will lead to an F grade of the course.
 - iv) In Intensive English Course (IEC), if a student misses the class more than 40 hours in a semester, the student will receive an F grade on the course.
- (4) Students should report the reason of absence to the instructor in advance, or immediately after the absence.
 - (5) When a student excuses his/her absence, the student must provide documentation of the reason for the absence to the instructor.
 - (6) The instructor of the course reserves the right to excuse absences.
 - (7) The course instructor may excuse the absence if the submitted documentation fulfills the conditions below.
 - i) Extreme emergencies (e.g. death in the family)
 - ii) Severe medical reasons with doctor's note (Not a slight illness)
 - iii) Very important events (e.g. national conference, official school event)
 - (8) At the end of semester, the course instructor should submit a copy of the attendance sheet to the Academic Affairs Office.

I have shared the link. FYI, retake policy is now changed

(http://sb.cc.stonybrook.edu/bulletin/current/policiesandregulations/records_registration/multiple_registrations.php).

Incomplete (I)

If circumstances beyond the student's control inhibit the student's ability to complete the work for a course on time, the student is responsible for informing the instructor of the circumstances immediately. At the discretion of the instructor, a temporary report of I (Incomplete) may be assigned, signifying that the student has been granted additional time to complete the requirements for the course. After granting an I, the instructor will set a date for completion of the requirements. That date will be no later than November 1 for courses begun the preceding spring semester or summer session and no later than March 15 for courses begun the preceding fall semester.

Students may not complete coursework for which an Incomplete was assigned by auditing or registering again for a subsequent offering of the course. If the instructor determines that circumstances merit it, the instructor may request an extension of the original Incomplete by written notification to the Registrar. This extended deadline will be no later than the last day of classes of the semester following the one in which the course was taken. Longer extensions for extraordinary reasons must be approved by

petition to the appropriate academic office. If the work is not satisfactorily completed by the applicable or extended deadline, the final grade of I/F, U, or NC, as appropriate, will be assigned. The grade of I/F will be averaged as F when computing the grade point average (g.p.a.) or determining other measures of the student's academic standing.
